Dimitar

Dimi has been working as an ELICOS Coordinator at Orange College since 2018. He is a talented and gifted teacher.

Students love his class because he is motivated and enthusiastic at the same time that he is patient and respectful. We are sure you will love his classes too!

"I love teaching. It makes me very happy when I see students working together, sharing ideas and communicating. The most special moment in teaching English, for me, is the breakthrough moment - when a student makes a leap in their language skills - pronounce that difficult sound or word correctly, write a sentence without any errors, sustain their first 2-minute conversation with another person. I think that's the best feeling in the world."

Work experience

I've been working as an English teacher since I first graduated in 2010. I've worked as a teacher in several different countries, including Macedonia, Bulgaria and Australia.

I have experience working with students from all over the world. I've taught a range of different courses, from General English, to IELTS and PTE preparation courses, to Cambridge certificates, to the four certificates in EAL.

Qualifications/ Specializations

- Bachelor of Teaching with Teaching English to Speakers of Other Languages (TESOL) as method - completed in 2010
- Master of Teaching with specialisations in English and English as an Additional Language - completed in 2022
- A variety of courses and certificates, including (but not limited to) Certificate IV in Training and Assessment

Ella is a passionate and enthusiastic teacher.

She loves different cultures and sports and she brings this knowledge and love to her students. Her wide interests are what make her classes unique and stimulating.

"Language allows me to communicate with people more effectively and form relationships with people from other cultures."

"I love teaching because I really enjoy helping students achieve their goals. Everyone has a different reason for learning English, whether it'd be for work, further study or simply socializing. I would like to think that I can help them get to where they want by sharing my knowledge and experiences. What I also love about teaching is what I can learn from my students as well. Believe it or not, I learn something new every day."
