Certificate III in Carpentry

Ready to become a qualified carpenter?

Increase your employability by completing a Certificate III in Carpentry at Orange College. This course will teach you everything you need to know to get started and you will learn from industry leaders.

Course Overview

This is a trade qualification for carpenters in residential and commercial workplaces. It includes setting out, manufacturing, constructing, assembling, installing and repairing products made using timber and non-timber materials

State and territory jurisdictions may have different licensing, legislative, regulatory or certification requirements. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

Completion of the general construction induction training program, specified in the Safe Work Australia model Code of Practice: Construction Work, is required by anyone carrying out construction work. Achievement of CPCWHS1001 Prepare to work safely in the construction industry meets this requirement.

This qualification is suitable for an Australian apprenticeship pathway.
